

COMMUNITY SERVICE

INTERNATIONALLY MINDED & DEEPLY ROOTED TO INDIAN CULTURE

HVB *aspires to* nurture and imbibe within all students the highly empowering philosophy of 'International Mindedness', where students start local and then branch global. In addition, our international curriculum takes the best pieces of the many different teaching styles and pedagogies found throughout the world and combines them to create a unique learning culture, where diversity and difference are valued and learning is long-life.

HVB AT SOCIAL & ENVIRONMENTAL WELFARE PROGRAM

We empower our students to actively learn by providing them with real life experiences that go beyond the classroom through [Social responsibility program](#). 100% student participation. Various projects taken up by our student under different projects

SAPLING PLANTATION

This [World Nature Conservation Day](#) along with 50 other schools our HVBians carried out a large scale plantation drive, planting over 1200 saplings near Ram Ratan International School.

Planting our legacy, one sapling at a time.

Happy Earth Day....let's stand together with our little tots to save our mother Earth.

Our students of Grade 9 conducted an awareness campaign on the 'perils of inequality'. They campaigned with slogans and posters across the campus and educated the people in school community.

'PERILS OF INEQUALITY CAMPAIGN'

WORLD POPULATION DAY

Working today, will only help us to make a better tomorrow.

[World Population Day](#) activation where our primary section [Cambridge Learners](#) educated us on the ill effects of overpopulation through their performances.

CAMBRIDGE LEARNERS educated us on the ill effects of overpopulation through their performances.

FARMERS IN THE LARGER FOOD CHAIN reflected on the role of our farmers in the larger food chain. The [Cambridge Learners](#) attempted to establish the idea that the farmers form the core foundation of any nation.

"When the village begins, the nation eats." A beautiful skit presented by Grade 2 in [UOI](#).

NO JOB TOO SMALL

Our students of grade one presented a skit at our recent Unit of Inquiry- Reiterating respect and kindness transcends all barriers!

There's no job too small"

Our students are encouraged to take up various social- economical projects.

HVB's ethos is to give quality education to all, irrespective of their economic status. Our mission statement encourages us to reach out to the best in each student. In this initiative, we see a great contribution to our society. Further, HVB annually organizes social service campaigns through active social campaigning. Our students give service through the programmed 'Aadhar'. The initiative is in sync with the children of Our Lady of Dolours (a school in our vicinity for the street children). Our children also travel to remote tribal belts like Nimboli where they have contributed to preparing 'smoke-less chulhas' (*stove) and teaching at the local school.

Ujjwal Bhavishya - Honorable Dr. A. P. J. Abdul Kalam's presence at HVB Academy's Golden Jubilee Celebrations is undoubtedly a huge moment of pride for all HVBians. The project Ujjwal Bhavishya is a humble endeavour on part of HVB Academy to make a difference in the lives of underprivileged children in our society so that they can be self-reliant and can aspire for a dignified life in future. To take this project further, the school has associated itself with some NGOs who send children to HVB regularly. They are taught by the teachers and senior children of the school itself. The books and stationery are provided by the school. There are 40 such children who are at present under the tutelage of HVB.

Dr APJ Abdul Kalam, former President of India who was the Chief guest during the Golden Jubilee celebrations highly praised Dr Pathak for this initiative taken by the school towards enhancement of society at large.

Citizenship Club- An Achievement- “Desh Apnayan Award”

HVB has been recognized and awarded by the Desh Apnayen Foundation, spearheaded by Shri Vallabh Bhanshali, founder, mentor and an illustrious alumnus of the school for multi-faceted, crucial, social initiatives undertaken.

HVB Global Academy believes in the power of community building to shape the future generations. HVB supports the cause undertaken by its alumnus & social crusader Mr. Vallabh Bhansali and his dedicated team of societal entrepreneurs at Desh Apnaye.

Keeping in mind, the sheer devotion and perseverance required to complete this mammoth mission named 'Project Impact'; our beloved Principal Dr. Chandrakanta Pathak has stimulated the students and teachers alike. Project Impact aims at the 'Beautification of F Road, Marine Drive'. Undertaking this project has provided our children experiential learning. The students conducted a survey of F road and diagnosed the problems and offered key solutions. This project has guided the students to experience empathy towards the society. As they discovered solutions to the problems they were able to accept viewpoints of their team members and work cohesively to beautify F Road. The project has provided the students with a sense of responsibility and duty to do something worthwhile for their city as well as country.

NDTV & HVB Global Academy's Dream for a Behtar India

HVB Global Academy has taken up the cause to make India a better and prosperous country along with NDTV Behtar India campaign. Through this campaign HVB Global Academy aims to instill in children a feeling of nationalism and devotion for their country.

HVB's Vision, Mission and Motto for the last 50 years has been to nurture imagination, inspire excellence and create lifelong stories. The school has participated in a string of philanthropic projects like Desh Apnaye, Ujjwal Bhavishya etc.

Developed as a path-breaking 360° campaign, Behtar India allows citizens, school children and corporates, to supplement each other's efforts to drive awareness and initiate tangible progressive actions towards building a better India. Aimed at creating a nationwide movement, the focus is on three main pillars of the campaign – Health, Hygiene, and Environment.

HVB Global Academy is part of this nationwide movement. Under the guidance of our ever willing and vibrant Principal Madam, students and teachers armed with great ideas, passion, and determination successfully completed all three stages. The eager students of HVB Global Academy created a plan of action to spread awareness about Dengue in their locality. Armed with a self-designed leaflet, children created awareness in their respective neighbourhoods. They collected donations to sponsor Dengue Kits for the underprivileged. During their summer vacations children made it a point to spread awareness of the same wherever they went. Students donated more than Rs. 32,000/-. For the second stage, students in the literal sense 'took up brooms' to clean their surroundings. Armed with gloves, brooms and masks they cleaned the ground, 'Shri Niketan'. Students pledged to maintain it by conducting regular cleanliness drives. On 29th September, they took the initiative to make our mother earth a better place. They planted more than 300 saplings in the urban jungle, Mumbai. Planting so many saplings is not an easy task, but our energetic, resolute and committed team of students and teachers did not budge until they planted the last one.
